

Amanda Tencza Whitaker, MD Bio

Philosophy of Care

I want to offer the best care available for your child that is centered within the family. We will work together to formulate a care and treatment plan that aligns with best practices and child/family aspirations. My goals are for everyone to live an active, healthy lifestyle, no matter their circumstances.

Clinical Interests

Dr. Whitaker is a pediatric orthopaedic surgeon offering care to children with clubfoot, skeletal trauma, lower limb deformities and macrodactyly of the foot. She also specializes in the orthopaedic care of children and adults with cerebral palsy.

Research/Academic Interests

Dr. Whitaker's research focuses on improving care for children and adults with cerebral palsy, focusing on hip surveillance, outcomes, gait, and critical analysis of literature and standard of care. She also has an interest in clubfoot and lower limb deformities.
