

Eli Kamara, MD, is an Orthopedic Surgeon and an Associate Professor at the Albert Einstein College of Medicine in the Bronx, New York City. He specializes in adult reconstructive orthopedic surgery, mainly hip and knee replacements. He focuses on primary joint replacement, as well as revisions of hip and knee arthroplasty, anterior hip arthroplasty and partial knee replacement.

Dr. Kamara received his undergraduate degree at Columbia University in Applied Mathematics. He then received his medical degree at the Albert Einstein College of Medicine where he graduated with distinction in research. While at Einstein, he received the National Institutes of Health Fogarty International Clinical Research Scholarship to study Pott's disease in New Delhi, India. He then completed residency in Orthopedics at Lenox Hill Hospital in New York City, followed by fellowship in Adult Reconstruction at the University of San Francisco School of Medicine.

Dr. Kamara has published articles and book chapters on hip and knee replacement, focusing on anterior approach hip replacement, robotic surgery, infection, and wound healing. He has presented his research at national and international meetings. He served as the American Association of Hip and Knee Surgeons Health Policy Fellow from 2022-23 where he focused on the burden of prior authorization in medicine. He currently serves on committees in AAHKS, AAOS, and the New York State Society of Orthopaedic Surgeons, and is a member of the Journal of Arthroplasty Editorial Board.

Dr. Kamara is board certified by the American Board of Orthopedic Surgery. He is a member of the American Academy of Orthopedic Surgeons, the American Association of Hip and Knee Surgeons, and the New York State Society of Orthopedic Surgeons.
