

Dr. David J. Tennent, MD is an active-duty Army board-certified orthopedic sports medicine surgeon, currently serving as the Chief of the Orthopedic Surgery Sports Medicine Service and Associate Program Director for the Orthopedic Surgery Residency at Brooke Army Medical Center. He completed his residency training at Brooke Army Medical center prior to continue his fellowship at the John A. Feagin Jr. Orthopaedic Sports Medicine Fellowship at West Point. With a strong foundation in both clinical practice and academic leadership, Dr. Tennent is an Associate Professor of Surgery at the Uniformed Services University of the Health Sciences. He has formerly served as the Director of the Human Research Protections Office, and the Chief of Orthopedics for the Army's 10th Field Hospital and Evans Army Community Hospital.

Dr. Tennent is recognized for his contributions to advancing orthopedic research, particularly in sports medicine and military-specific injuries. His work spans over 40 peer-reviewed publications, with a focus on innovations in surgical techniques, rehabilitation, and combat injury management. In addition to his clinical and research achievements, Dr. Tennent has held several key leadership roles within multiple orthopaedic subspecialty organizations. His dedication to advancing the field has furthermore earned him multiple awards recognizing his clinical leadership and academic innovation.

Combining his expertise in orthopedic sports medicine with a commitment to excellence in patient care, Dr. Tennent has served as the team physician for elite military, collegiate, and Olympic athletes while also providing critical surgical care during humanitarian and military operations. With a career spanning military, academic, and clinical excellence, Dr. Tennent remains a leader in advancing orthopedic care, research, and education, making a profound impact on the orthopedic community.
