

David Michael Bennett, M.D. was born and raised in Arizona and has built his career at the intersection of pediatric orthopaedics and spine surgery. He currently serves as President of the Arizona Orthopaedic Society, CEO of Orthopaedic Innovations, and Chairman of the Outcomes and Benchmarking Committee for the Scoliosis Research Society. Dr. Bennett is also a faculty member with academic appointments at the University of Arizona, Mayo Clinic, Barrow Neurological Institute, and Creighton College of Medicine. His leadership has extended nationally through roles with the American Academy of Orthopaedic Surgeons and the Pediatric Orthopaedic Society of North America, while locally he has shaped innovation and care delivery at Phoenix Children's Hospital. A consistent advocate for education, research, and policy, he has combined clinical expertise with strategic vision, leading initiatives in innovation, preoperative planning, and the integration of technology to improve orthopaedic outcomes.
