Dr. Srikanth Divi is an Assistant Professor in the Departments of Orthopaedic Surgery and Neurological Surgery at Northwestern University Feinberg School of Medicine. He obtained his bachelor's degree in Biomedical Engineering at Johns Hopkins University, followed by his medical degree the University of Pittsburgh School of Medicine. He completed his orthopaedic surgery residency training at the University of Chicago Medical Center, followed by a special 2-year clinical and research spine fellowship at the Rothman Institute/Thomas Jefferson University Hospital. Following this, he returned to Chicago to begin his academic career at the Feinberg School of Medicine in 2020. Currently, he is an assistant fellowship program director for Orthopaedic spine surgery. His main research interests include the application of artificial intelligence and machine learning techniques for analysis of spine surgery outcomes. In addition, he is actively involved in several academic research societies including CSRS, LSRS, and NASS.
