Alan Blank, MD is an orthopaedic oncologic surgeon specializing in the comprehensive management of benign and malignant tumors of bone and soft tissue. His clinical practice focuses on complex limb-salvage surgery, pelvic and acetabular tumor reconstruction, and the treatment of metastatic bone disease, with a consistent emphasis on oncologic excellence, functional preservation, and patient-centered care.

Dr. Blank completed his undergraduate education at the **University of Pennsylvania**, where he earned a degree in **English**. He subsequently obtained both his **MS and MD degrees at Chicago Medical School**, followed by **orthopaedic surgery residency training at NYU/Hospital for Joint Diseases** and **fellowship training in orthopaedic oncology at the Huntsman Cancer Institute**.

Dr. Blank serves as **Director of the Rush Sarcoma Program**, where he leads a multidisciplinary team dedicated to delivering coordinated, high-quality care for patients with rare and complex musculoskeletal malignancies. He also serves as **Chair of the Commission on Cancer at Rush** and is a member of the **Medical Staff Executive Committee**, contributing to institutional governance and strategic decision-making.

Nationally, Dr. Blank serves as an **Executive Committee member of the Musculoskeletal Tumor Society (MSTS)**. At Rush, he is the **Orthopaedic Surgery Clerkship Director** and **Chair of the Orthopaedic Residency Program Search Committee**. In recognition of his dedication to education and mentorship, he has received **multiple Golden Apple teaching awards**.

Dr. Blank leads an active research team and has authored **over 100 peer-reviewed publications**, **10 book chapters**, and has been awarded **multiple competitive research grants**, advancing evidence-based care and outcomes for patients with musculoskeletal tumors.
