Luke J. Johnson Bio.

Born & Bred in the Adelaide Hills in South Australia, Luke is a huge fan of his home town and region.

A/Prof. Luke Johnson is the Head of the South Australian Bone & Soft Tissue Tumour Unit, which he founded in 2015, based at The Flinders Medical Centre. He has established a Multi-Disciplinary Team to deal with the complexities of Bone & Soft Tissue Tumours and is actively involved in research and teaching in regards to this area of Orthopaedic care, both Nationally & Internationally.

He is a Visiting Surgeon at Flinders Private Hospital & Stirling Private Hospital as well as holding public appointments at Flinders Medical Centre, The Women's & Children's Hospital, as well as Regional Centres in SA and the Northern Territory.

Luke has been an American-British-Canadian Travelling Fellow in Orthopaedics, a well respected academic & leadership award. Due to his unique skillset, Luke is a Board Member of the Asia-Pacific Musculoskeletal Tumour Society & an active Member of The International Society of Limb Salvage (ISOLS). Within ISOLS he has also chaired the development of the International Sarcoma Registry, a global initiative to aid in data collection and research collaboration, with the goal of always improving patient care.

Luke is also committed to Teaching and Training within Orthopaedics; having been the Director of Orthopaedic Training In the Southern Adelaide Region for over half a decade, and is now on The Court of Examiners for Orthopaedics within The Royal Australasian College of Surgeons.
